### Farmers of Gromatia Be Proud!

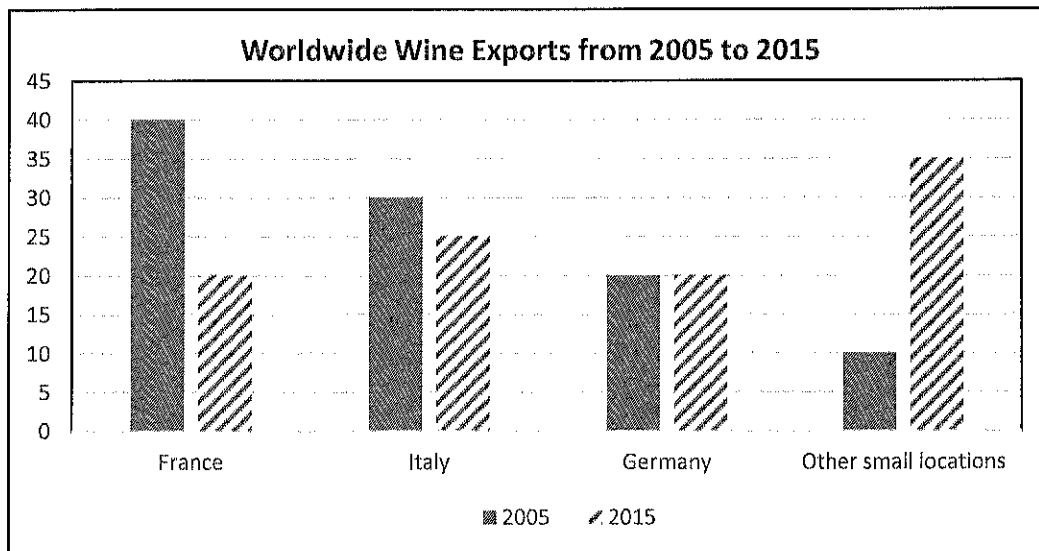

The Government of Gromatia would like to thank all its farmers for their hard work this year. Despite the winter flooding and the summer drought, 2005 was overall a great year for the farming industry. As a nation whose income is based on the revenue generated by the produce of our farmers, Gromatia feels that your work is of the greatest importance to us.

We have sent you the figures for 1995 and 2005 so that you can measure your success for yourselves. However, you will notice that exports were down in certain areas. In particular, coffee was low. These days, coffee drinking is becoming very popular thanks to large chains of coffee shop offering cheap but tasty coffee worldwide. We feel that it is important for Gromatia to gain a position in this market. Over the next ten years, we will be offering subsidies to farmers who plant coffee. We hope that this will enable us to increase our annual exports.

The second area in which we hope to excel is wine. Please see the enclosed pie chart. With more leisure time, better education, and a desire for luxury. People are becoming more interested in wine. In the past, people stuck to the wines of France, Italy, and Germany, but now they are looking for more unique wines from smaller locations. This is where we see a niche for us in the markets. We

believe that this will be our strongest export item by 2015.
